

BT5 Degreasing Solution: *for exclusive use in the BenchtopPRO™*

BT5 Degreasing Solution is a pH neutral mixture of emulsifiers and surfactants containing no solvents. It is blended in liquid form to produce a biodegradable, non-toxic, non-caustic, non-flammable, and non-hazardous oil dispersant and degreaser. The BT5 formula contains no OSHA or DOT regulated chemicals, no known carcinogens, no ingredients requiring SARA Title III reporting, no RCRA hazardous waste chemicals and no items on the CERCLA hazardous substances list.

BT5 Degreasing Solution is designed for ambient parts cleaning in the BenchtopPRO™, the first and only bioremediating bench-top parts washer.

Non-Hazardous
Non-Flammable
Non-Polluting
Non-Toxic

Certifications and Approvals: NSF

BT5 Degreasing Solution

Contaminant	Cleaning Efficiency
Crude Oil	excellent
Hydraulic Transmission Fluid	excellent
Motor Oil	excellent
Solder & Flux	good
Bearing Grease	excellent
Automotive Grease	excellent
Resin Products	good
Fifth Wheel Grease	excellent
Creosote	excellent
Impacted Grease	excellent
Animal Fat	excellent
Automotive Varnish	fair
Burned-On Carbon	fair
Cutting Oils	good
Ink/Toner	good
Asphalt	fair

Specifications

appearance	free flowing liquid
odor	low
density	1.0136 g/ml
pH	7.3
flash point	None
